Solar Eclipse Party at Wichita Falls Public Library

Wichita Falls, Texas- The Wichita Falls Public Library will be hosting an “Eclipse Party” on October 14, 2023, from 11 a.m. to 1 p.m. To celebrate, there will be music, food trucks, activities, a costume contest, yoga, and more.

This all-ages event is free and open to everyone in the community. Prizes will be awarded for the best costume of any kind.

Attendees will receive a free pair of solar eclipse safety glasses while supplies last. Viewing the eclipse in Wichita Falls will not result in seeing a “ring of fire” but be a deep partial view (with a magnitude of 95.6%) in which a large portion of the sun is covered. Even during an eclipse, viewers should not look directly into the sun without specialized protection. Regular sunglasses are not safe for sun viewing. Any equipment such as a camera, phone, or telescope must be equipped with a solar filter. Unsafe viewing can risk severe eye injury and/or equipment damage.

For more information about the party, visit wfpl.net or contact the library at 940-767-0868.
